

# SEAN NABER

web developer/graphic designer

```
$.ajax({
  type: "GET",
  url: "http://art-share.herokuapp.com/api/users",
  success: function(d) {
    var users = d;
    console.log(users);
    var name = users.result.fname;
    var headline = $("<h1>").html(name);
    $("#header").html(headline);
    console.log(name);
  }
});
```

## ABOUT ME

A print/digital designer with 10 years of experience who has finally let my want to code lead me in a new direction.

Although I've not held the title of "developer," I've been the go-to development person on my team for 10 years.

Automation, scripting, SQL-based marketing tools, even internal websites have formed from my love of coding.

When I'm not learning something new, I'm cooking, working out, obsessing over the weather, or wishing I was orbiting Saturn.
